

WREX Products Inc., is in Chico, CA and was founded by Wrex Howard in 1960.

WREX Products manufactures custom plastic and metal die casting parts to meet the demands of today's engineers. We focus on product development and move quickly. We efficiently deliver precision parts on-time, from one-off prototypes to high volume production.

- We have served over 600 individual customers and have completed over 1,300 projects.
- Customers range from small businesses to multi-billion dollar corporations.

WREX Products specializes in the following:

- Plastic Injection Molding
- Die Casting (Aluminum & Zinc)
- Powder Coating
- Finishing
- Pad Printing
- Tool (Mold) Design & Manufacturing
- CNC Machining
- Quality Assurance
- Medical Devices

TURNKEY PRODUCT FABRICATIONS THAT ARE PACKAGED AND READY TO SHIP

A COMPLETE SOLUTION FOR

**DIE CASTING
POWDER COATING
INJECTION MOLDING**

PLASTIC INJECTION MOLDING

- **28 Ton–500 Ton** Injection Molding Machines.
- Wide range of Resins and Colors
- Small to large volume production
- Prototype/Production Tooling
- Multi-cavity and Family Molds
- Medical Devices and Documentation
- Over Molding
- Insert Molding
- Blending

ASSEMBLY

- ESD Assembly
- Electro-mechanical assembly
- Thermal/Ultrasonic Insert Installation
- Secondary Operations
- Gluing/Pad Printing
- Packaging

QUALITY ASSURANCE

Our QA department has the highest standards to assure your product exceeds your expectations.

- ➔ On-site Product Testing and Inspections
- ➔ 3D/GD&T Measurement Capabilities
- ➔ Large range of Precision Measuring Tools
- ➔ Probe Assisted CMM, Visual CMM
- ➔ Gage Calibration In-house
- ➔ Traceable to NIST Standards
- ➔ Quality Assurance Document Control through IQMS; FAI Reports

IQMS
Manufacturing ERP

TOOLING

- Engineering/Design Assistance (**DFM**)
- Tool Development
- Tooling Repairs and Modification
- Milling, Lathe, EDM, Wire EDM, Grinding

DIE CASTING

- **250 Ton–560 Ton** Capability
- Aluminum & Zinc Casting
- Trimming

FINISHING

- Trimming
- Vibratory Deburring, Ball Burnishing
- Drilling/Tapping
- Polishing/Sanding
- CNC Machining (Steel, Aluminum, Zinc, Brass, Copper, Plastic, Special Alloys, etc.)

POWDER COATING

- Wide range of Powders & Colors
- Clear/Gold Conversion Coating (Alodine)
- Custom masking and fixturing
- Sand Blasting

MANUFACTURING LOCATIONS

- Chico, California
- Off shore

We serve customers all across the USA, Canada and Mexico.
